### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kevin Johnson (Reg. No. 35,558) on July 2, 2007.

The application has been amended as follows: Claims 1-15 and 22 have been cancelled.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art fails to teach a method of making a shaving razor, including providing a plurality of elongated razor blades with an elongated support and connecting first longitudinal ends of said supports to each other by first weld connections and connecting second longitudinal ends of said supports to each other by second weld connections as set forth in claim 16.

Regarding claim 16, Apprille, Jr. et al (6,009,624) discloses a method of making a shaving razor substantially as claimed, including: providing a plurality of elongated metal razor blades, each said razor blade comprising an elongated cutting member (18) and an elongated support (34) extending along a length of said cutting member and attached to said cutting member, said cutting members having cutting edges, and said elongated supports having first and second longitudinal ends, said first and second

Art Unit: 3724

longitudinal ends being located at opposed ends of an overall extent of each said razor blade; positioning said cutting edges parallel to each other and spaced from adjacent cutting edges so as to define a shaving surface; and welding first weld connections (60) proximate said first longitudinal ends and second weld connections (60) proximate said second longitudinal ends. Apprille, Jr. et al fail to disclose connecting first longitudinal ends of said supports to each other by first weld connections and connecting second longitudinal ends of said supports to each other by second weld connections as set forth in claim 16.

The above prior art by itself or in combination with the other prior art cited fails to teach the claimed invention set forth in claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
